TECHNICAL SKILLS

React | JavaScript | HTML | CSS | TypeScript | WordPress | PHP | NodeJS | Git | npm | MongoDB | Google Cloud | Heroku | Express

PERSONAL PROJECTS (FOR ADDITIONAL PROJECTS, PLEASE VISIT MY PORTFOLIO SITE)

Portfolio Site - https://ollebac.dev
React, JavaScript, HTML, CSS, Google Cloud

- Designed and developed a professional and visually appealing portfolio website to showcase my skills and work samples.
- Built the website using React, JavaScript, HTML, and CSS, ensuring that it was responsive and easy to navigate for users.
- Referenced and researched UI design through articles, YouTube, and observation to better personalize the design.
- Developed a personal styling standard and applied it to a CSS module system to be reused for further personal projects.
- Collaborated with illustrators and graphic designers for their expertise and contributions to the site.
- Continuously updated the website with new work samples and projects to keep it relevant and current.

Client Site – https://wtfcrossfit.com
Wordpress, CSS

- Designed and developed a website for a local business, resulting in an increase in online traffic and gym membership.
- Collaborated with the client to understand their needs and preferences, and delivered a site that met their expectations.
- Provided ongoing maintenance and support to ensure the website remained up-to-date and secure.

Discord Bots (Elder Drake & Superbot)
JavaScript, TypeScript, Discord API, Express

- Designed and developed custom Discord bots using JavaScript and the Discord.js library to enhance the community's gaming experience.
- Collaborated with moderators and community leaders to understand their needs and built bots that improved communication, moderation, and event management.
- Utilized APIs to integrate external services and data sources, including Twitch, to enhance bot functionality.
- Implemented automated testing and debugging practices to ensure the bots were reliable and bug-free.
- Provided ongoing maintenance and support to address any issues and ensure bots remained up-to-date.

Weather Application
JavaScript, Handlebars, Express, CSS, Heroku

- Developed a site on Heroku that allows a user to obtain the local weather forecast.
- Application makes use of Handlebars and Express to render content to the pages.

EDUCATION

William Paterson University - Wayne, NJ   2013 - 2017
Bachelor of Science in Computer Science
Dean's List (2013 - 2017)
Computing and Information Honor Society Member | Founding Member of Alpha Kappa Psi Business Fraternity

PROFESSIONAL EXPERIENCE

PricewaterhouseCoopers – Florham Park, NJ   10/2019 – 05/2022
Risk Assurance Experienced Associate / Workday Advisor

- Performed Sarbanes-Oxley ITGC testing and supported clients in enhancing new and existing IT controls.
- Strengthened policies and procedures by identifying control vulnerabilities and developing remediation plans.

- Managed multiple ongoing audit projects with teams consisting of on and off shore members.
- Evaluated risks of audit findings, proposed remediation strategies, and developed mitigation controls.
- Provided audit guidance to teams across the company for Workday.

Focal Point Data Risk – New York, NY   09/2017 – 10/2019
Project Advisory & Internal Audit
- Identified risks, developed audit test plans, and executed audit testing to conclude on ITGC controls.
- Assisted with project management, including budgeting across various aspects of the engagement and helping clients improve security.
- Coordinated with external auditors (Big 4 accounting firms), on behalf of the client, and assisted in managing various audit issues including optimizing their reliance on internal audit work.
- Performed implementation testing in Workday; documented and tracked risks and issues for the team to address prior to the go-live phase with the new cloud ERP system.
